

Can I stream using Switcher Studio?

Glisser LIVE

<https://www.glisser.com/support/can-i-stream-using-switcher-studio/>

Unfortunately **Switcher Studio** does not allow you to embed a YouTube video/stream on an external website (it turns the setting off in your YouTube settings). Just as you would embed a stream onto your own website, Glisser LIVE works by embedding your YouTube stream onto your Glisser LIVE page, so unfortunately until Switcher Studio resolve this issue on their platform then we will not be able to host streams from Switcher Studio.
